. Jabez Stewart of Canterbury once said, "If you don't run the game yourself, you don't understand it." Judging afl trade signals is complicated, but knowing when to run the game is half the fun. As is trading, all you're looking for is a strategy that makes the most money over time. A strategy that works now, may not work tomorrow. So, how will you know if this strategy works? This system has been tested by virtually every trader on the planet, including some of the biggest names in the industry. The system is so effective that its creators, Todd Shriber and Dan Nicks, have published a trading ebook with a foreword written by a board member of Schwab.
