History In early 1993, during the first beta release, John Warnock, the founder of Adobe, stated that "the goal is to make it work like a vector drawing program, not like a fixed-line program. It's a vector drawing program". AutoCAD's working-like-a-fixed-line heritage also extends to its capabilities for 2D drawings and text. The first release, known as the 1995 Release Version, was released in October 1995 and was mainly a renumbering of the existing functions. AutoCAD RT was released in September 1996.
